

Pre-Colloquium Post-Doctoral & Early Career Scholars Workshop 2023

University of Cagliari

Tuesday, July 4, 2023, 09:00–23:00 CEST

Notes on the format and preparation

Session 1

- No special preparation is needed. We will “speed date” to get to know each other through one-on-one introductions.
- So, by the end of this session, we will all get to know some other people more intimately.
- This part is for onsite participants only. Online participants are invited to join us at 9:30 (and you will have your online speeddating during the 2nd part of Session 2).

Session 2

- After a short introduction and 15-minutes presentations by our panelists, you will select which table to join and discuss the respective tension and ways of addressing it with the assigned faculty member for about 20 minutes.
- We will switch the tables three times so that you get the opportunity to discuss three different tensions and get to know other groups of early-stage scholars.
- We will end this session with a brief round of reporting back to the plenary, for which the faculty members are responsible.

Session 3

- We randomly assigned each of you a sparring partner whose aspirational CV we ask you to read before the workshop → See “Pairing” on next pages!
- Please send each other your current and aspirational CVs (you may add/revise them if anything has changed since you submitted them to us). Do let us know if, for some reason, you were unable to contact your partner.
- Please read your partner’s current and aspirational CV and prepare comments on what you liked, what inspired you, what you think is missing, and what will be the key challenges to making it happen.
- In this session, after a short intro, you will have time to discuss your aspirational CVs in the assigned pairs.
- Then, we will put you together in groups of four to further exchange among yourselves, with some guiding questions from us.
- Next, we will form three or four groups, each with one faculty member or convenor moderating before concluding in the plenary.

We will join the PhD Workshop for a **Keynote** (15:30–17:00) and finalize the day (together with the PhD Workshop’s participants) with a festive **dinner**.

Looking forward to meeting you all face to face and virtually really soon!

Mélotie, Manuel & Tammar

Pairings for Session 3: online

	Last name	First name	E-mail
OL Pair 1	Armstrong	Ryan C.	ryan.armstrong@ub.edu
	Bernard	Julie	julie.bernard.5@ulaval.ca
