

Reframing Organizations in the More-than-Human Society

Co-evolution.

A Living Experiment in Human–AI Dialogue

WITH

Telmo Pievani

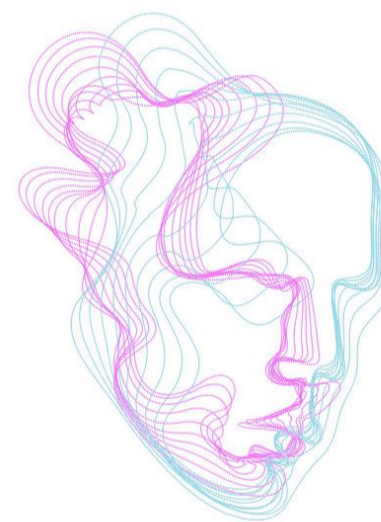

Professor of Philosophy of Biological Sciences, University of Padua

Simone Rovaris

Digital artist

ABOUT THE EVENT

An unscripted, real-time dialogue on evolution, organizations, and risk, where human thought encounters generative artificial intelligence in a live experimental setting. Reflecting the Colloquium's commitment to sustainability, the performance runs entirely on remotely accessed open-source AI systems.
